The PASIFIC Fellowship Programme offers attractive 2-year fellowships at one of the institutes of the PAS and the International Institute of Molecular and Cell Biology in Warsaw

2 years

of research
at the PAS

69 excellent

host institutes
to choose from

any research field

approx. €2,500

monthly allowance net

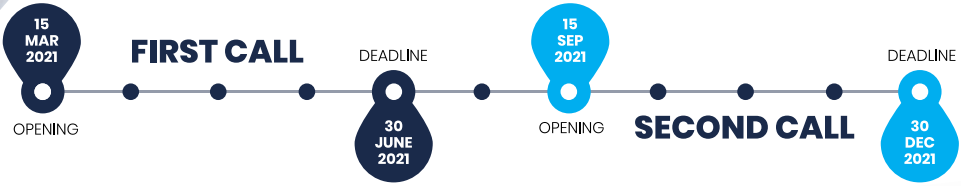

extensive offer

of mentoring, training
and workshops

up to €93,000 budget for research

Up to **50 fellows will be recruited in two calls** announced in 2021. In the first call 35 fellows and in the second call 15 fellows will be selected.

Who can apply?

researchers of any nationality, with PhD or at least 4 years of equivalent research experience who have spent in Poland max. 12 months during the three years prior to the call's deadline

How to apply?

Before applying for the PASIFIC Fellowship, you need to **identify a suitable PAS institute and a prospective supervisor**, who will commit to support your research. Find more information at the website: **www.pasific.pan.pl**

In cooperation with the host institute and a prospective supervisor, you should prepare an application to be submitted to the online system that will be open **from 15.03.2021 to 30.06.2021** (Call 1) and **15.09.2021 to 30.12.2021** (Call 2).

The application will consist of an online administrative form and include following documents:

- CV and track record of scientific achievements
- research project description (max. 10 pages)
- supervisor's CV and description of project's impact on the institute's research environment (to be prepared jointly with the institute's representatives)
- ethics self-assessment (if necessary)
- scanned PhD diploma or documents confirming the equivalent 4-year research experience
- scanned letter confirming support from the prospective supervisor and host institution

The Polish Academy of Sciences

The Polish Academy of Sciences (PAS), founded in 1952, is one of the most prominent scientific institutions and the largest scientific network in Poland. Gathering both national and foreign members, it is responsible for spearheading the development of science in Poland.

The Polish Academy of Sciences is also a network of 68 research institutes and the International Institute of Molecular and Cell Biology that cover all research disciplines. In various rankings, including the Scimago Institutions Rankings and the Nature Index, the PAS ranks first among research institutions based in Poland.
