We are pleased to announce the second edition of the international school on "Science Diplomacy in the 21st Century: Foundations, Players, and Dynamics for Future Practice", which will be held from 4 to 9 October 2026 in Erice, Sicily, at the Ettore Majorana Foundation and Centre for Scientific Culture.

Following the success of the first edition in 2024, the School will once again bring together diplomats, international officials, academics and researchers to explore the role of scientific diplomacy in international relations with regard to current global social challenges.

More details will be shared in due course on site
